

What will happen next ...

1. Once you click the submit button below, you will receive a confirmation email containing the information you submitted about yourself (the first eight questions). If you're not quite finished, don't click the "submit" button yet.
2. You may use the link in the confirmation email to make any necessary corrections to the data you submitted until the survey closes.
3. Approximately the first week of November, County Extension Directors will receive a summary of the data submitted for the county office. County Extension Directors will maintain a copy of the summary report in office files.
4. The communication in November will contain more information about the timing of reviewer recommendations and next steps for developing a county action plan.

Thank you!
