

Instructions:

For the Brief Summary Section:

In lieu of writing brief statements, institutions may use the critical issues (previously named planned programs) as defined in their Plan of Work, if such information clearly describes multistate and Integrated issues and activities.

Please check the appropriate box in this section and indicate the year of the Plan of Work you would like to refer to in lieu of writing brief statements.

If you choose to write brief statements, provide a short (2-3 sentences) statement for each program describing the major activities that satisfy the multi-state and integrated activities requirements set forth in AREERA.

For the Certification Statement:

Institutions must certify that they met their target percentages or certify that they did not meet their target percentage. Institutions may be subject to an audit of this information.

If Institutions did not meet their target percentages, they must provide a statement justifying why this target was not met. They may also be asked to provide additional documentation and justification.
