Call to Action

Engaging for ***LIFE***

Learn

Identify audiences with an interest in your topic or beneficiaries who could gain value from your content.

Who are our various audiences and what opportunities or challenges are they facing?

Interpret

Define emotional or intellectual concept that identifies why your learners should care about the topic.

Why do (or should) each of our audiences care about the challenge or opportunity?

Frame

Design unique narrative that captures the attention of your audience segment based on interpretive theme.

How might we frame our message to meet the emotional or intellectual needs of our audiences?

Engage

Decide delivery platform(s) and content types through which you will connect and engage with audiences.

When and ***where*** should we reach our audiences to strategically move them inward on the web of engagement?

Other Considerations

Where will this video be hosted?

What do we want our audience to do with the information?

What calls-to-action will we include?

How will success be evaluated?

Telling Your Story

Topic

Getting kids to eat healthy

Learner Profile

What information does my learner need to be successful?

What stands between my learner and their success?

Which of these are internal conflicts?

Which of these are external conflicts?

Story Framework

What solutions do I offer?

How can I help my learner
achieve success?

Story Framework

Positive Framing

What does it look like for our learner if they use our product/service resulting in success?

What specific action will they take?

What will they experience and why?

How will they feel and why?

What transformation will take place and why?

Story Framework

Negative Framing

What does it look like for our learner if they do NOT use our product/service resulting in failure?

What specific action will they take?

What will they experience and why?

How will they feel and why?

What transformation will take place and why?

STORYTELLING

Convey information in best way possible

1. Cut out any extraneous information
2. Limit video length
3. Make content engaging

STORYTELLING

Creating engaging videos

- Keep audience in mind
- Pull inspiration from video content in your life

STORYTELLING

Film Genres

STORYTELLING
